

28SI™ Heavy Duty Alternator

FEATURES & BENEFITS

- **Dual internal fan (DIF)** design provides maximum cooling technology
- **OE approved**, assuring OE quality, reliability and performance for aftermarket replacements
- **Superior output** producing up to 200 Amps at road speed and 140 Amps at idle

- **Equipped with Remote Sense** which utilizes a second wire that reads the actual voltage at the battery. This signals the alternator to boost its output to compensate for the voltage drop, ensuring 14 Volts at the battery. The proper voltage forces more current into the battery bringing it to a full state of charge between vehicle stops. Reduces battery charge time by 50%.

- **Warranty:** School Bus: 2 year/unlimited miles*. All Other Vehicles: 1 year/unlimited miles* (Applicable to U.S. and Canada only)
