

31MT™ Commercial Vehicle Starter

FEATURES & BENEFITS

- Developed from the 29MT design – of which there are more than 1.25 million OE units installed – the 31MT provides **virtually full coverage for the Class 6 & 7** commercial vehicle aftermarket.
- This model features **positive shift engagement**. In the case of tooth abutment, the armature rotation in full power clears the abutment to allow pinion engagement. The benefit is zero click-no-cranks (CNC). This is well suited for high start/stop vehicle applications.
- The 31MT is highly **corrosion resistant** due to improved brush holder plating and stainless steel springs.
- A number of design changes to the hardware, including the commutator, O-rings and bearings, as well as the lamination have resulted in the 31MT being one very **robust** starter.

10% more peak power than the competition

COMPETITIVE COMPARISON

IDEAL APPLICATIONS

- Delivery vehicles
- Waste disposal vehicles
- Emergency vehicles
- School busses
- Tow & haulers
- Recreational vehicles
- Shuttle busses
- Generation sets & compressor units

SPECIFICATIONS

Engine Size	12V up to 8 Liters
Rotation	Clockwise
Mounting	12V: SAE #1
Pinion Data	10 Tooth, 10-12 Pitch 10 Tooth, 8-10 Pitch 9 Tooth, Mod 3-metric
Output	12V peak at 4.1kW
Weight	8.4 kg / 18.5 lbs
Diameter	90 mm / 3.5 inches
Engagement System	Positive shift engagement
