

39MT™ Heavy Duty Gear Reduction Starter

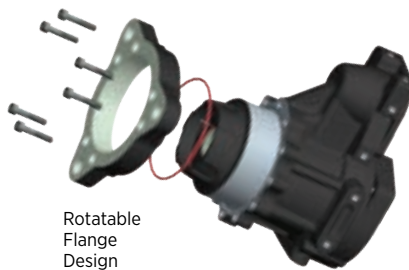

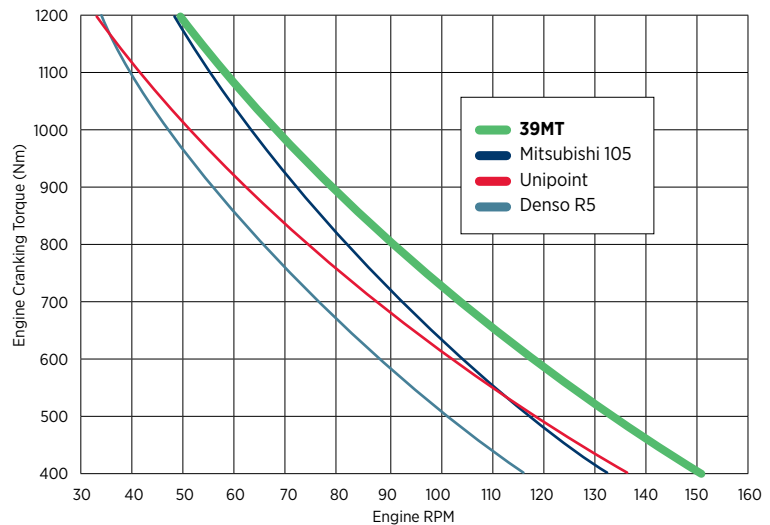

Cranks up to 30% faster than the competition

FEATURES & BENEFITS

- New service models come standard with **Over Crank Protection (OCP)**. OCP monitors the internal temperature and prevents thermal damage to the starter by preventing overcranking.
- These models feature an **Integral Magnetic Switch (IMS)**. IMS reduces voltage drop and ensures the solenoid receives the maximum available voltage in any starting condition.
- **Rotatable flange models** were designed specifically to improve service flexibility and part number consolidation. They easily replace competitive units and provide full industry application coverage.
- **Warranty for All Makes models:** 3 year/unlimited miles (Applicable to U.S. and Canada only)
